### *HOT DOG ROLLER INSTRUCTIONS*

---

**WARNING:** Connect the cord to a suitable outlet and be certain no other equipment is operating from the same outlet. Failure to do so will reduce the unit's output and performance.

Place hot dogs on rollers.

Turn heat to designated temperature. Left knob controls the heat of one set of 5 rollers and the right controls the other set of 5 rollers.

For low capacity, set on low using one or both sets of rollers.

**For high capacity, set on high or medium using both sets of rollers.**

Thank you for choosing TLC Rents
